

Post-Financing Growth Services

Raising funds is a significant milestone for any startup. With funds in the bank, it's time to position your company for accelerated growth and long-term success. Fourscore is here to help.

What we provide:

Board Meeting Subscription Service

We will help you organize and facilitate effective, quarterly Board Meetings and train your officers to run Board meetings themselves.

Legal Services as a Monthly Subscription

As your legal needs increase, we'll ensure legal fees are a standard, regular line item in your budget (rather than a surprise based on hourly billing).

Legal Strategy Meetings

We'll host dedicated, regular strategic planning meetings with Fourscore attorneys and your company officers to help proactively identify legal solutions to potential business challenges.

External Legal Resources

Our network of legal specialists can assist in all of your legal needs, including patents, trademarks, employment, privacy and data security, litigation, tax, and international concerns. A few of these External Legal Resources are visible here.

Online Cap Table Management

If you're not already using an online cap table, now is the time. We can help you onboard and maintain your cap table as your company grows and evolves.
